Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In all independent claims 1, 3, 5 and 6, the recitation of **a light path** among **the plurality** of input and output ports is inconsistent. Further, no relationship between the ports and the structure is seen, in terms of arrangement.

In claims 2 and 4-6, a plurality of lights outputted from the output ports is noted; however, no lights are seen recited coming through the input ports.

Allowable Subject Matter

Claims 1, 3, 5 and 6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claims 2 and 4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The present invention contains allowable subject matter. Vis-à-vis best reference noted, Mattia, the optical device of the present invention has a plurality of input ports, and a plurality of output ports, among other elements (common

the both inventions), whereas that of Mattia has two input ports (for input signal path and control signal path, respectively) and an output port for each photonic transistor of the plurality of the photonic transistors connected in series, with the output port of the first photonic transistor being used as one of the two input ports of the flowing photonic transistor; this input port is for passing a control signal into the second photonic transistor. In Mattia's device, a second output for each photonic transistor is not desirable.

Minor Informality noted in the Specification

In paragraph [0011], line 3, "in" should be deleted.

In paragraph [0029], line 16, "between" should be deleted.

Communication

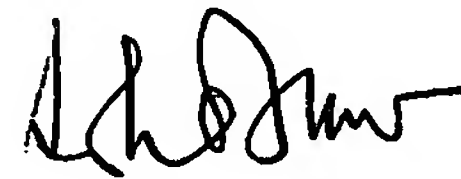

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Loha Ben whose telephone number is (571)272-2323. The examiner can normally be reached on Monday to Saturday, generally between 12:00 noon and 8:00 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia Y. Epps, can be reached on Monday to Friday, at (571)272-2328. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
